### **Bi-State Welcomes Mandi Gingras as Recruitment and Retention Coordinator**

MONTPELIER, VT – January 27, 2014 - Bi-State Primary Care Association welcomes Mandi Gingras to serve as Recruitment and Retention coordinator for Bi-State’s nonprofit Recruitment Center. The Recruitment Center recruits primary care providers including physicians, dentists, nurse practitioners, and physician assistants and provides candidate referrals to Federally Qualified Health Centers, Rural Health Clinics, and private and hospital-sponsored physician practices throughout Vermont and New Hampshire.

“Since 2007, oral health access grants have enabled us to contract with Mandi to develop the oral health division of Bi-State’s Recruitment Center. Mandi has developed a pipeline for pre-dental and dental school students and established relationships to assist dental students and practicing dentists meet the future demand for oral health providers in New Hampshire,” said Tess Stack Kuenning, CNS, MS, RN, president and chief executive officer of Bi-State. “In her expanded role at Bi-State, Mandi will also coordinate the recruitment and retention of medical providers in both Vermont and New Hampshire.”

Mandi Gingras is located in Bi-State’s Bow, New Hampshire, office and can be reached at (603) 228-2830x 116 or email: [mgingras@bistatepca.org](mailto:mgingras@bistatepca.org).

Bi-State’s Recruitment Center serves as a resource for employers and candidates regarding the eligibility requirements and availability of recruitment incentive programs such as state educational loan repayment, Conrad State 30, and National Health Service Corps programs.

With offices in Montpelier, Vermont, and Bow, New Hampshire, Bi-State works with state and federal health policy organizations, foundations, and payers to develop strategies, policies, and programs that support community-based primary health care services in medically underserved areas.
