NH Health Care Leaders Present National Awards to Members of Congress

WASHINGTON, DC – March 17, 2016 – Among the thousands of Community Health Center advocates congregating on Capitol Hill this week were representatives from New Hampshire's Community Health Centers and Bi-State Primary Care Association. Advocates came from across the country to meet with their Members of Congress to thank them for their support, inform them about the primary health care needs in their home states and to ensure every health center in the nation's largest primary health care network remains strong and stable.

Bi-State and the Community Health Centers presented Sen. Ayotte, Sen. Shaheen, Rep. Guinta and Rep. Kuster with Distinguished Community Health Awards from the National Association of Community Health Centers. The New Hampshire delegates received awards for demonstrating their support of Community Health Centers during the 115th Congress. The Community Health Centers in New Hampshire offer access to primary medical, dental and behavioral health care, as well as critical substance abuse treatment programs, to more than 110,700 residents.

Maintaining bipartisan Congressional support for the cost-effective Community Health Center program is critical to the future health of the nation's families and workforce. More than 22 million Americans access primary health care services at their local Community Health Center thanks to the past 50 years of Congressional support.
