DR. RON SPAULDING TO RECEIVE NEW HAMPSHIRE COMMUNITY SERVICE AWARD

NEW HAMPSHIRE – May 13, 2016 – On May 24, Ron Spaulding, DDS, retired oral surgeon and Ammonoosuc Community Health Services (ACHS) board member, will receive the NH Community Service Award from Bi-State Primary Care Association. This annual award “honors individuals whose volunteer efforts have made a significant impact on the vulnerable populations in Vermont and New Hampshire.” Dr. Spaulding will receive the award during the Awards Ceremony Luncheon at the 2016 Primary Care Conference on May 24 in Fairlee, Vermont.

Dr. Spaulding initiated his relationship with ACHS over five years ago with a generous gift of dental equipment to the health center. Since then, his strategic guidance, informed by years of dental surgical practice in the north country of Vermont and New Hampshire, has been instrumental in assuring ACHS’s capacity to begin to address the dearth of access to dental and oral health services in their service area. As a content expert, he has provided the ACHS board of directors and senior leadership team with valuable guidance in every step of their creating an in-house dental practice in an effective and efficient manner.

Dr. Spaulding graduated from the University of New Hampshire with a bachelor’s in Biochemistry and from Columbia University School of Dental and Oral Surgery. He did his internship and residency in Oral and Maxillofacial Surgery at Bronx Municipal Hospital Center, Albert Einstein College of Medicine.

Established in 1986, Bi-State Primary Care Association is a nonpartisan, nonprofit 501(c)(3) charitable organization. Bi-State’s annual Primary Care Conference features experts in health care policy and practice at the federal, state, and local level and attracts a large audience of primary care administrators, clinicians, and policymakers.
