FOR IMMEDIATE RELEASE

Bi-State Primary Care Association’s First Clinical Symposium Will Offer In-Depth Diabetes Education

NEW HAMPSHIRE/VERMONT – May 16, 2019 – On Monday, May 20, Bi-State Primary Care Association will host its first Clinical Quality Symposium: “Improving Your Clinical Expertise in Diabetes,” at Lake Morey Resort in Fairlee, VT.

This conference stemmed from clinicians’ identification of the need to focus intensively on improving diabetes. It is designed to meet the needs of all practicing clinicians and health professionals. The audience will consist primarily of primary care providers, nurses, medical directors, diabetes educators, clinicians, and specialists from across Vermont and New Hampshire.

The morning keynote speaker, Marcella Wilson, Ph.D., is the president and founder of Transition to Success™ and an Emmy Award winner for the “WRUFightn4” documentary promoting youth volunteerism. Wilson is leading a national social change movement with a standard of care to treat poverty as an environmentally-based medical condition.

Following the keynote, panelists will discuss the current environment in New Hampshire and Vermont around food insecurity, identified as a root cause of chronic diseases including diabetes. The afternoon will consist of three diabetes-focused workshops conducted by a mix of regional and national experts. These workshops will offer concrete tools to help clinicians in managing their patients with diabetes and keeping up with the newest treatment options.

WHAT: 2019 Clinical Quality Symposium: Increase Your Clinical Expertise in Diabetes
WHEN: Monday, May 20th. Opening remarks begin at 8:30 AM. (Hours: 8:30 am - 4:30 pm)
WHERE: Lake Morey Resort, Fairlee, Vermont
