

Vermont Migrant Farmworkers: Partners Working in Collaboration to Ensure Access to Health Care

2009-2012

16 farms/447 workers

2012-2015

145 farms/716 workers

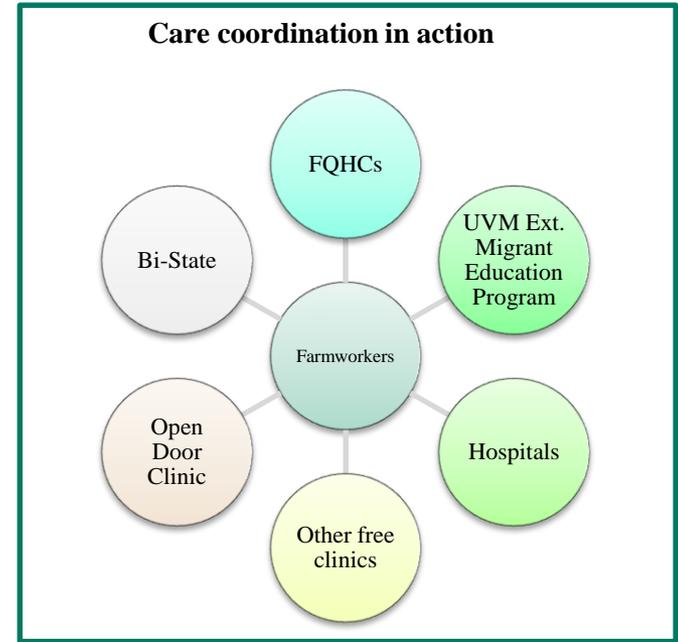

2015-2018

202 farms/1,100 workers

Care coordination in action

Farmworkers bring unique access barriers

- 1. Language
- 2. Cost of care
- 3. No time to go to the doctor
- 4. Lack of insurance
- 5. Transportation
- 6. Fear of leaving the farm

What can the legislature and other partners do to support the project?

- Sustain medical infrastructure
- Sustain care coordination model
- Address barriers to care
